

# Welcome to ProTech

The innovative ERP provider with super %0 projects failure rate towards minimum complexity and maximum functionality

## About Us

With zero percent projects failure rate, ProTech is a Jordanian IT consultancy that develops powerful integrated business solutions to complex tasks in the realms of ERP business softwares and cloud applications with one theme in mind:

**We deliver to inspire actions**

What we do is that we take part of the burden off the companies' shoulders, so that they can focus on achieving their ultimate goals.

**We are not only a software development house!  
we are for ambitious people looking to control their  
day-to-day businesses operations since 2001.**

Thus, ProTech takes the responsibility to make things happen for businesses who're seeking to invest in their technologies towards.

**Shaping concepts into stellar software solutions  
That cater businesses ease and boost their sales**

## What We Offer

ProTech is a group of engineering and project managing professionals we have a thorough understanding of our clients' requirements no matter the size of your company, and are ready to work with them to reach beyond their goals. ●

When it comes to the landscape of tech, you can think of ProTech as your IT right hand whether you need a technology solution, improve your current workflow or expanding your setup.

Working on the agreed scope of project with ZERO fail stories, fully honored!

From going live reaching to the warranty period, our hero staff brings you the required expertise, experience, and support with outstanding after-sales services.

Our cutting-edge products prove its competency over the past years in helping businesses improve revenue, control their operations, boost productivity, and go paperless.

Our team members of professionals are a great asset contributing to ProTech success. As a result, we have a very low turnover rate, fully honored again.

Expect nothing but the excellence of your project from the start to finish with 20+ years of real-world experience alongside deep know-how of the business and technology industries.

# Business Statements

## What we believe in

If it's good for your business, it should be good also for your clients!

## What we aspire to be

To be preferred path-finder in software business solutions for organizations and entrepreneurs.

## Our roadmap

To enable clients to go beyond their technological requirements to fulfill broader business goals by developing, implementing and integrating the latest technologies in software business solutions.

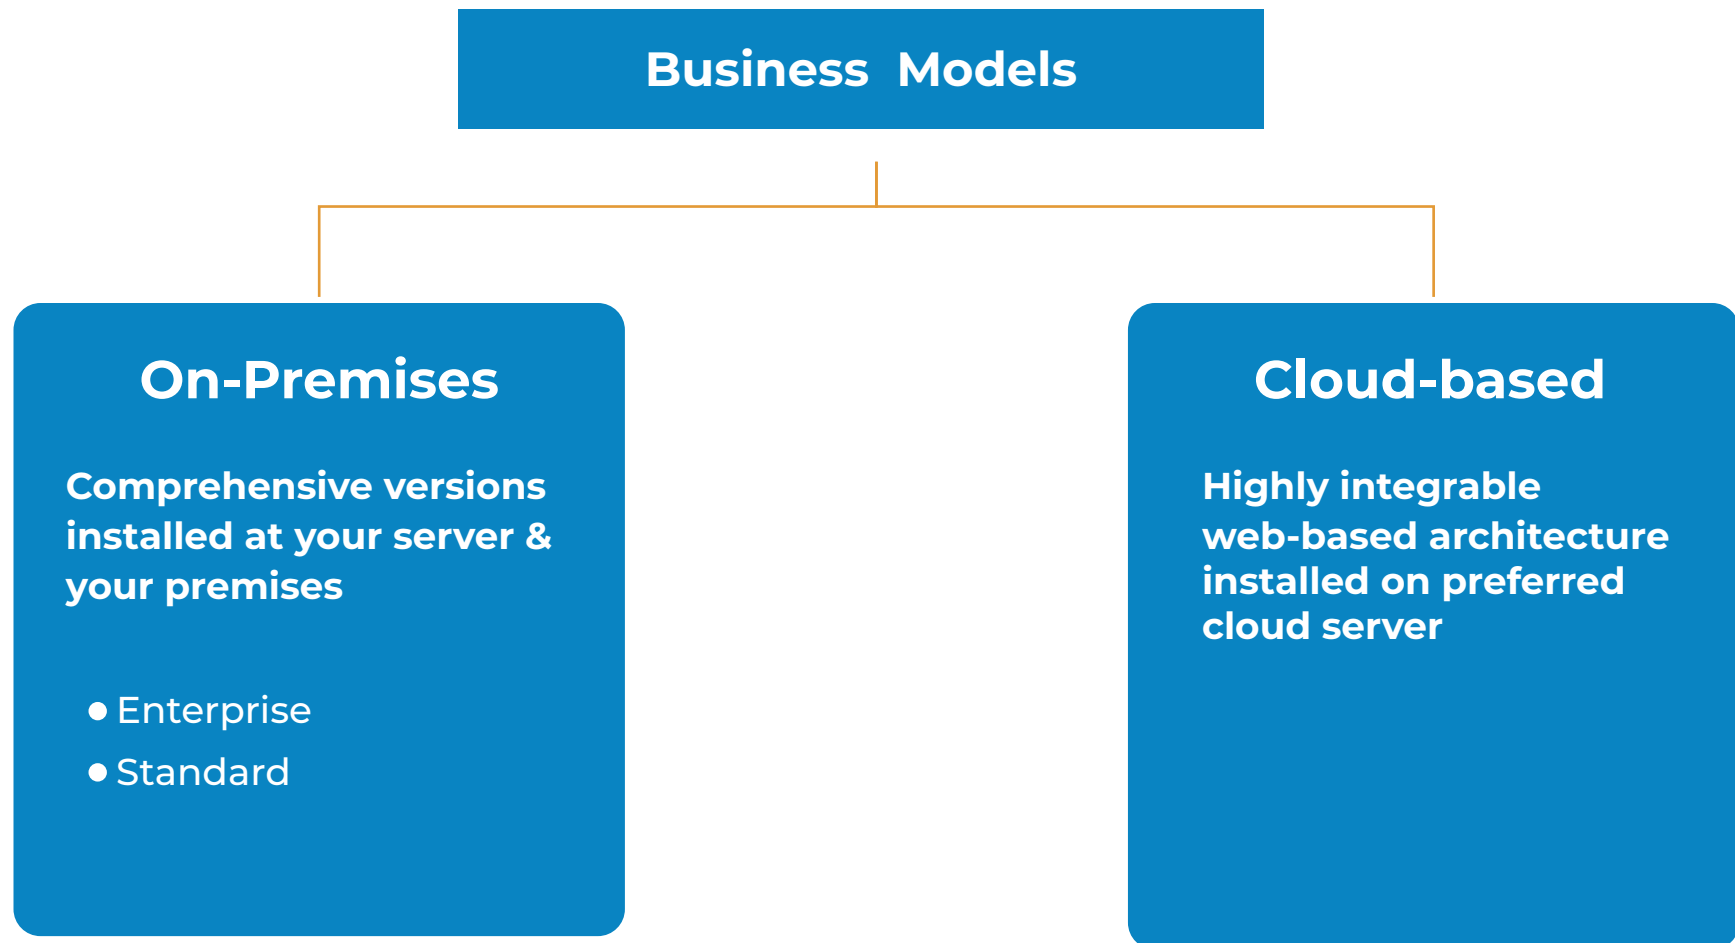

## What powers our performance to reach there

Innovation, creativity and flexibility are our trends to achieve growth as a partner in ours and others' companies, sharing our successes and using open communication channels.

## Our Products
